

OSALEJA

Radade salvestamiseks/lisamiseks:

1. Saab kasutada telefoni äppi – testitud töötab – **slaididel Variant I**

3. Saab kasutada sünkroonimist otse Suunto, Polar Flow, Garmin Connect, Strava keskkondadest st. et, kasutades keskkondadega ühendamist Liveloxiga, süsteem „saab ise aru“, et osaleti sellel üritusel ja sellel rajal. Eraldi ei pea keegi midagi kuhugi laadima – testitud töötab - **slaididel Variant II**
4. Saab lisada/joonistada hiljem käsitsi – testitud töötab
5. Saab siduda ka GPS seadme Livelox keskkonnaga – testimata, puudub GPS seade.

Variant I - OSALEJA - ENNE METSA MINEKUT – telefoni seadistused (lubada asukohale alati ligipääs)

Vajalik, et treeningu ajal asukoha saatmine ei katkeks!

Variant I - OSALEJA - ENNE METSA MINEKUT – telefoni seadistused (kui ekraan kinni siis äpp jääks tööle)

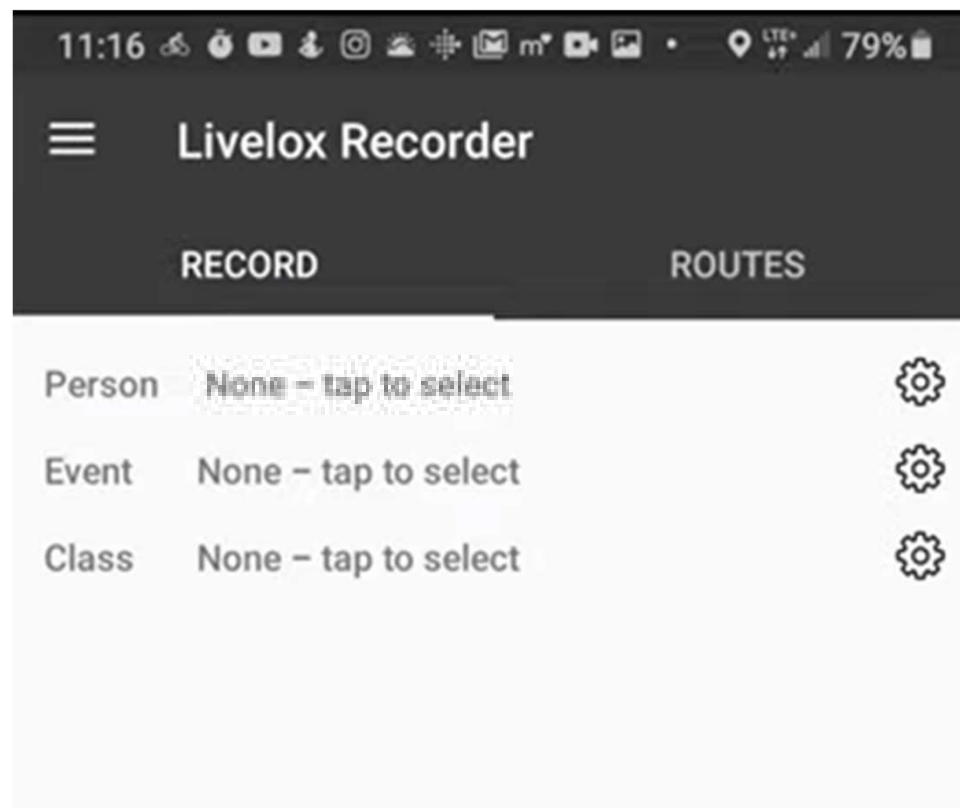

Selleks, et telefon ekraani lukustumisel ja väljalülitumisel säiliks salvestamine ning andmete edastamine, on vajalik optimeerida rakenduse akukasutust.

Variant I - OSALEJA - ENNE METSA MINEKUT – telefon + äpp

The screenshot shows the 'Create user account' page on the Livelox website. At the top, there is a navigation bar with the Livelox logo and links for 'Subscribe', 'About', 'English', 'Create user account', and 'Log in'. Below the navigation bar, the page title is 'Create user account'. A blue note box contains the following text: 'Please note: If you are member of a Swedish, Norwegian or Australian orienteering club, please log in with your Eventor account rather than creating a new user account. Creating a new user account will prevent your routes to be connected correctly to results from Eventor. Also, subscriptions connected to your Eventor account will not be available. Contact your club administrator if you don't know your Eventor login details.' The form includes input fields for 'First name', 'Last name', 'Email', 'Username', and 'Password'.
